

Data-Driven Communications

Unit 3: Data Visualization Principles and Processes

Course Overview

- ▶ Unit 1: Defining the Business Objective and Sourcing Data
- ▶ Unit 2: Data Analysis
- ▶ **Unit 3: Data Visualization Principles and Processes**
- ▶ Unit 4: Visualization Tools and Techniques
- ▶ Unit 5: Evaluating Data Visualizations
- ▶ Unit 6: Storytelling with Data

Unit 3 Learning Outcomes

- ▶ select appropriate visualizations to explore data findings
- ▶ encode and annotate data visualizations
- ▶ evaluate visualization techniques

Why are Learning Outcomes Important?

- ▶ Every learning outcome ties back to course materials and content.
- ▶ Assessments are tied to each learning outcome.
- ▶ Test preparation

Unit 3 Topics

- ▶ Data Visualizations
- ▶ Principles of Data Visualization
- ▶ Data Visualization Examples

Unit 3 Vocabulary

- data visualizations
- exploratory graphics
- presentation graphics

Data Visualization

- ▶ Data Visualization
 - ▶ Graphic representations that communicate data analyses results
 - ▶ Make complex data more accessible, understandable, and usable
- ▶ Data Visualization of Big Data
 - ▶ Identify hidden patterns
 - ▶ Increase flexibility
 - ▶ Compare various units
 - ▶ Enable real-time human interaction

Principles of Data Visualization

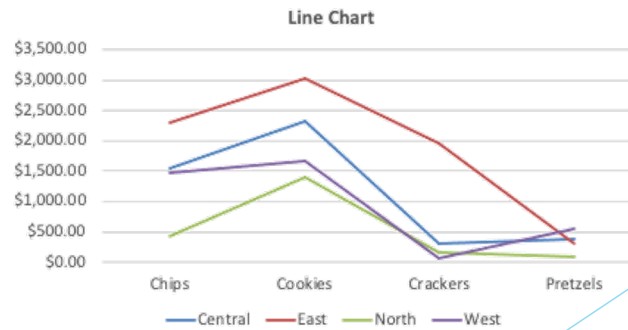

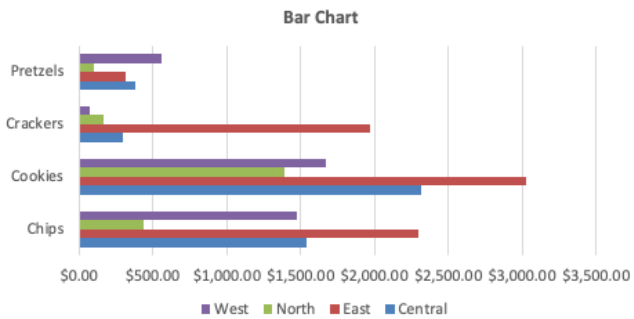

- ▶ must be data-driven (show the data)
 - ▶ must be clear and accurate
 - ▶ must be free from distractions
 - ▶ must be easy for the eye to interpret and compare data
 - ▶ must be integrated with the statistical and verbal descriptions of a data set
 - ▶ avoid distorting what the data has to say
-
- ▶ Two types of graphics
 - ▶ Exploratory graphics
 - ▶ Presentation graphics

1. Examples of Data Visualizations

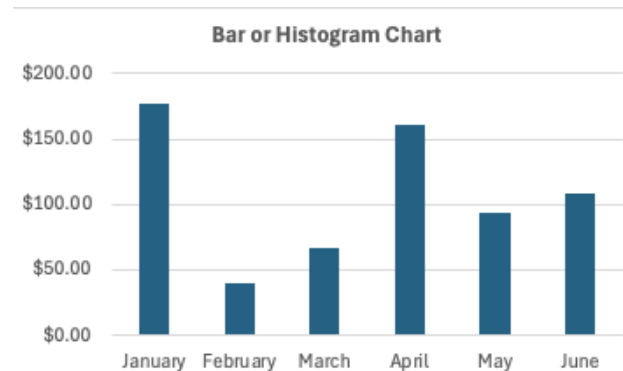

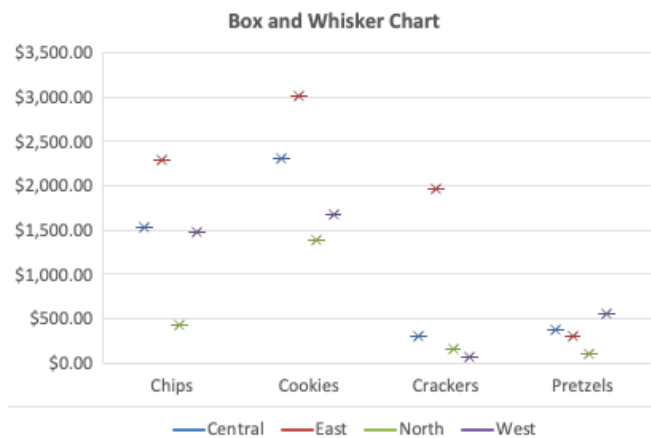

► Comparison charts

Region	Chips	Cookies	Crackers	Pretzels
Central	\$1,536.90	\$2,311.49	\$296.65	\$378.33
East	\$2,296.28	\$3,022.00	\$1,964.87	\$310.17
North	\$438.51	\$1,391.43	\$167.52	\$99.12
West	\$1,476.84	\$1,670.86	\$73.29	\$554.40

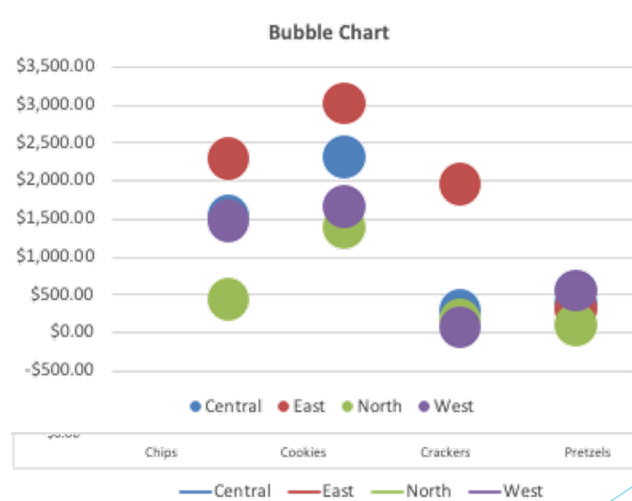

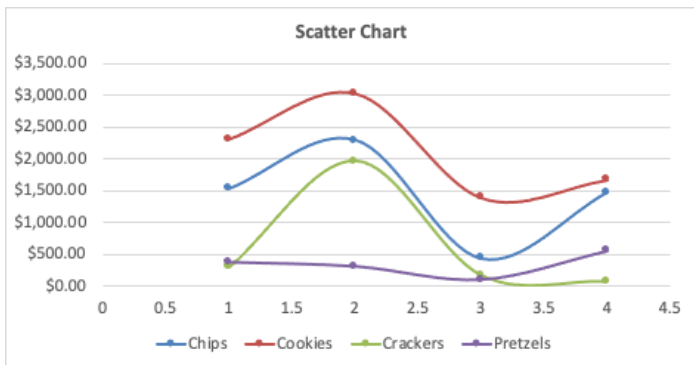

2. Examples of Data Visualizations

► Distribution charts

3. Examples of Data Visualizations

► Relationship charts

Conclusion

Unit 3 Learning Outcomes:

- ▶ select appropriate visualizations to explore data findings
- ▶ encode and annotate data visualizations
- ▶ evaluate visualization techniques

What's next?

Unit 4: Visualization Tools and Techniques
